

Enterprise Level Exchange Administrator/Engineer

Reply to: careers@techcessgroup.com

Techcess Group has an immediate opportunity for an Enterprise Level Microsoft Exchange Administrator/Engineer to join our server team in the Houston TX, Greenway Plaza location.

The candidate must be comfortable working in a fast paced environment with little direction. The primary role of the candidate will be to support Exchange 2003 and 2007 but as a member of the server team, must also support other server related issues.

Required Skills:

- Candidate must have extensive Enterprise Level hands-on knowledge of designing, implementing, migrating, monitoring, and fixing Exchange Server 2003 and 2007.
- Candidate is expected to analyze 100+ small and medium size client environments and fix any and all Exchange issues in accordance with Microsoft Best Practices.
- Must be able to resolve high level technical issues related to Exchange including clustering, high availability, disaster recovery, mail store corruption, mail store restores, migrations, etc.
- Candidate must have intimate knowledge of Windows Server 2003 (Standard and Enterprise) and should be able to support AD, DNS, DHCP, etc. issues.
- Candidate must have a willingness to learn new technologies such as Windows Server 2008.

Qualifications:

-5 years of Windows Server and Exchange Server experience

-High school diploma or equivalent (Required)

-Bachelor's degree in related field (Preferred)

-MCSE 2003 and Exchange certifications preferred, but experience will be considered in place of certifications.

Benefits:

Techcess Group offers a competitive salary plan, overtime pay, opportunities for continued learning and certifications, and benefits package including 401(K). We are a Microsoft Gold Certified Partner and are ranked #9 on the Houston Business Journal's FastTech 50 list of fastest growing IT companies in Houston.
